

Workshop on Stock Market – Fundamental & Technical Analysis

MATS Institute of Management and Entrepreneurship (MIME) and the Stock Market Institute (SMI) jointly organized a one day workshop on stock market on Tuesday, 20 May 2014.

About Stock Market Institute (SMI)

Stock Market Institute (SMI) is the learning solutions wing of Basket Option Pvt. Ltd., an organization incubated by the JGI ventures in Bangalore. SMI is India's first stock market institute where experts teach students and other individuals all about Stock Market, using live trading activity.

Focus of the workshop

The first topic was on the overview of stock market. The second topic was on fundamental analysis which included, comparing and contrasting trading Vs. investing, fundamental approaches, financial statement analysis and fundamental ratios. The third topic was on technical analysis, which included, charting types & patterns, Dow Theory, Candlestick, Pitt Trading and all other concepts and conventions around the focus of this workshop. The workshop also included a 'live trading' session with state of the art online trading software (developed by SMI) to experience the thrill of live online trading. This hands-on training helped the participants to create and manage their own portfolio, practice the concepts, and do much more.

Profile of the knowledge facilitators

Mr. Rishab Jain is currently the Centre head of SMI. He is presently pursuing FCHFP and Certified Financial Planner programme. He was ranked 24 in an All India Commodity Trading conducted by Futures First.
